AMASES AWARD “Marida Bertocchi”

FOR THE BEST PAPER PRESENTED AT THE XLI NATIONAL AMASES CONFERENCE

CALL FOR SUBMISSIONS

On the sad occasion of her untimely passing away, AMASES wishes to honor Prof. Marida Bertocchi by naming after her the 2017 AMASES Award for the best paper presented by a young scholar to the XLI AMASES Conference.

AMASES commemorates her dedication towards mathematics applied to economic and social sciences, especially as it concerns doctoral education and the training of young researchers. Marida has been a devoted mentor and a safe harbour for several budding colleagues, having been the Coordinator for the Doctoral Program in "Computational methods for forecasting and decision in economics and finance" (recently renamed as Doctoral Program in Analytics for Economics and Business) at the University of Bergamo since 1993-1994.

The Italian Association for Mathematics Applied to Economic and Social Sciences (AMASES) establishes a prize for the best paper presented at the XLI National AMASES Conference which will be held from 14th to 16th September, 2017, in Cagliari (Italy).

The Prize, which amounts to 1000 Euro, is reserved to the AMASES associates born after January 1, 1987, that personally present their paper at the Conference.

The aspirants to the award must subscribe to the Conference regularly and send their papers to the AMASES Scientific Committee, by June 16th, 2017. The paper must be in its complete version (abstracts or extended abstracts will not be taken into consideration) and can have multiple coauthorships.

Previous prize winners at: <http://www.amases.org/awards/conference-paper>

The prize is awarded according to the final judgment of the AMASES Scientific Committee:

- i) the Scientific Committee will first select a maximum of 4 papers, as the most deserving submitted works for the competition;
- ii) the authors of the papers selected will be invited to present their contribution in a special session of the Conference;

- iii) the Scientific Committee will choose the winner taking into account the quality of both paper and presentation.

The award ceremony will take place in the course of the General Meeting of AMASES members. The authors selected for the special session will also be refunded the Conference registration fee. Further details will be provided in due time.

The Scientific Committee may decide for at most two *ex aequo* winners. If the presented papers are not considered valuable enough, the Scientific Committee may decide not to proclaim any winner.

Interested young authors must submit a CV, containing the date of birth, and the full paper, in pdf format, sending them by e-mail by June 16th, 2017, to the AMASES General Secretary, e-mail address segretario@amases.org.
